

Sun City Grand

Del Webb Corporation

Sun City, Arizona

1,115 - 2,967 sq. ft. plans

Three series of homes (twelve different floor plans in all) were designed for this active adult, golf course oriented community. To minimize the effects of the sunny desert climate, large roof overhangs and recessed windows were designed for the one-story homes. All of the homes orient to the rear to take advantage of views, and many have family rooms as well as breakfast nooks. All of the plans have at least 2 bedrooms, and some have a den/office or 3rd bedroom option. They offer the ultimate in leisure living opportunities with the flexibility and accessibility required for future needs.
